

leadec

My mission. My team: Leadec.

For our **Coventry Wheel and Tyre Operation** we are seeking a:

Head of IT & System (m/f/d)

Your mission:

- Ensure day to day management and supervision of the IT support team providing an escalation point for any queries. Coordinate all IT activities across operational and support locations. Liaise with group colleagues to identify best practices and synergies.
- Provide a stable and secure IT Infrastructure across all locations.. Lead all IT and application projects providing support (from project initiation, definition, implementation through to project close).
- Manage software and service renewals as they fall due. Ensure compliance with company, group and legislative requirements. Liaise with internal and external customers to identify efficiencies in the deployment and adoption of IT systems.
- Support Business Process Managers in the deployment of technical solutions to improve back-office process efficiencies.

Your Profile:

- **Training and qualifications:** HNC or equivalent qualification, Project Management accreditation, Navision, Zellis ResourceLink, Kronos, Infinity WMS, Salesforce Field Service experience.
- **Experience:** Experience of successfully leading an IT team in a decentralised business environment, working knowledge of IT operations (servers, networking)
- **Expertise:** Understanding of manufacturing environments, assembly, and sequencing, strong technical knowledge / understanding of data architecture and technologies, project management lifecycle
- **Demonstrable skills:** Excellent problem-solving skills, excellent verbal and written communication skills, methodical approach to issue resolution, organised and detail focused
- **Languages:** Very good knowledge of English

What we offer:

- Car allowance
- Life assurance
- 33 days (incl. bank holidays)
- Permanent Health Insurance
- Flexi-time
- Discretionary Bonus

About Leadec

As service specialist to the manufacturing industries, we put our heart and soul into what we do. Our customers have been relying on us for almost 60 years now. Our expertise revolves around the factory of today and tomorrow: We plan, simulate, automate, install and commission. With our maintenance, technical cleaning, facility management and logistics services, we ensure in the background that our customers' production runs optimally. And how do we do that? We're people who get things done, problem solvers, allrounders and we're great at dealing with emergencies where necessary. But above all, we're here to help.
