

**leadec**

**My mission. My team: Leadec.**

For our **BP Castrol** contract we are seeking an:

## **Area Manager (m/f/d)**

### **Your mission:**

- **Responsible** for ensuring the services provided at the customer sites are performed safely and efficiently. Taking responsibility for lubrication and condition-based monitoring services and developing the service offer by promoting best practices to deliver enhanced and improved site service levels.
- **Support** managing cutting fluid and oil sampling interpretation along with oil and greasing schedules. Carry out required behavioural safety audits, perform the service and checking of lubricant systems along with the collection of oil samples from the machinery assets on site ranging from centrifugal pumps and compressors, to agitator gearboxes and steam turbines.

### **Your Profile:**

- **Qualifications:** NEBOSH General Certificate, CCNSG Safety Passport
- **Knowledge:** awareness of lubrication and maintenance principles and the ability to compose RAMS
- **Experience:** previous experience within a power station environment is essential as is working in confined spaces
- **Demonstrable skills:** possess excellent organisational, communication and IT (Microsoft Office) skills, with the ability to drive change, build affective relationships with stakeholders, management and teams and be able to develop sales through existing and new customers.
- **Personal attributes:** Confident, assertive, resilient, proactive and enthusiastic. Have the ability to work under pressure, meet tight deadlines, self motivate and be able to deal with confrontational situations when faced with adversity.
- **Languages:** Very good knowledge of English.

### **What we offer:**

- Market Leading Salary
- Company Pension scheme
- Life assurance
- 33 days leave (inclusive of bank holidays)

### **About Leadec**

As service specialist to the manufacturing industries we put our heart and soul into what we do. Our customers have been relying on us for almost 60 years now. Our expertise revolves around the factory of today and tomorrow: We plan, simulate, automate, install and commission. With our maintenance, technical cleaning, facility management and logistics services, we ensure in the background that our customers' production runs optimally. And how do we do that? We're people who get things done, problem solvers, allrounders and we're great at dealing with emergencies where necessary. But above all, we're here to help.
